PUBLIC NOTICE

Notice # 16443-04
September 28, 2011

This notice is to inform the public that the S. C. Department of Health and Environmental Control (DHEC) is taking public comments on a Corrective Action Plan (CAP). This CAP addresses the cleanup of soil and groundwater contamination at the facility listed below. The contamination was caused by petroleum products that were released from the underground storage tank system at this facility.

FACILITY: AT&T Union SOC, 844 Rice Ave. Extension, Union SC

APPLICANT: S&ME, Inc., 11420 Johns Creek Pkwy, Duluth GA on behalf of BellSouth Telecommunications/ AT&T, 308 South Akard St., Room 1700, Dallas TX 75202

SUMMARY OF CAP: Petroleum and petroleum byproducts naturally break down over time through chemical, physical, and biological processes. These processes are called natural attenuation. S&ME, Inc. has submitted a CAP proposing the use of the following technologies in addition to natural attenuation to clean up the contamination.

- Chemical Oxidation: Oxygen-rich chemicals are injected underground to change the petroleum product(s) into harmless compounds (water and carbon dioxide).

PUBLIC COMMENT PERIOD DEADLINE: The **deadline** for submitting written comments is **5 PM October 13, 2011**. Any interested person(s) may submit written comments concerning the cleanup to DHEC's Project Manager listed below. Please bring this notice to the attention of persons whom you know will be interested in this matter. Where there is a significant degree of public interest, DHEC will hold a public hearing.
